EDUCATION

New York University | New York, NY | Sep. 2022 - May 2026

Bachelor of Arts in Computer Science; Minor in Web Programming and Applications

Coursework: Data Structures, Web Development and Programming, Software Engineering, Computer Systems Organization, Applied Internet Technology, Data Management and Analysis, Basic Algorithms, Discrete Mathematics, Linear Algebra

EXPERIENCE

SAIL (SAIL GTX) | Remote | Jun. 2026 - Aug. 2026

Rebuilt the marketing front end in React/Next.js, including a homepage redesign, canvas-based particle system, custom SVG charts, and a four-tab decision workspace illustrating classification and audit workflows.

Produced original video and motion content in DaVinci Resolve, including AI-generated and animated feature showcases. Built an intelligence pipeline to surface ICP-fit leads, competitor activity, and relevant regulatory events.

Web Development Tutor & Grader | New York University | Sep. 2025 - May 2026

Tutored undergraduates in HTML, CSS, JavaScript, and web design through one-on-one support and debugging. Graded projects with detailed rubrics and actionable feedback. Assisted with responsive layouts, accessibility, and deployment workflows.

Antonio Jefferson Studio Internship | Brooklyn, NY / Hybrid | May 2025 - Aug. 2025

Developed a full-stack booking platform integrating Google Calendar, Stripe, and automated email confirmations. Built double-booking prevention and responsive animated layouts, and tested end-to-end booking workflows.

SELECTED PROJECTS

Antonio Jefferson Studio Booking Platform | Flask, MongoDB, Stripe, Google Calendar, Jinja, Docker

Built start/end time selection, add-ons, dynamic pricing, and live availability; synchronized bookings and prevented conflicts. Deployed a test instance on Render. [Live demo](#)

kitchIn - Shared Pantry Manager | Flask, MongoDB, Jinja, Docker

Built and deployed a household pantry app with authentication, item requests, household roles, and dynamic templates. Containerized with Docker and configured automatic CI/CD deployment. [GitHub repository](#)

SAIL Marketing Website | React, Next.js, DaVinci Resolve

Designed and built the homepage and interactive product visualizations, combining a particle system, SVG charts, and decision workspace. [Live site](#)

SKILLS

Languages & frameworks: JavaScript, React, Node.js, Express.js, Python, Flask, Java; REST APIs, middleware, server-side rendering, object-oriented design.

Databases & tools: MongoDB, MySQL, SQLite, Git/GitHub, Chart.js, Bootstrap, Socket.io; schema design, joins, data visualization, and real-time features.

Design & development: Responsive web design, Flexbox, CSS Grid, Figma, wireframing, prototyping, RESTful API design, agile collaboration.

Languages: Fluent in English and Spanish.
